1. What is the flow rate and pressure of the Submersible pump and sludge pump?

	Flow rate	Pressure
Submersible pump	Not less than 25m ³ /h	3 - 4 bar
Sludge pump	Not less than 330 m ³ /h	-

2. What is the power rate for Submersible pump and sludge pump?

Will not be provided

3. Working pressure of spiral pipe and canvas hose?

Working pressure of Spiral pipe: Should be able to withstand submersible pump pressure

Working pressure of Canvas hose: Should be able to withstand sludge pump pressure
