1. Will any of the the following data be made available, if yes please provide the details :

- Drone image of the island (past and present)
- Land use plan cad files (at some level)
- Topographic data (past and present)
- Any bathymetric data available (past and present)
 - A: We are currently working with Urbanco to create the Land Use Plan of Kulhudhuffushi City as per the attached TOR. We will be able to provide you with updated drone images, the land use plan and topographic data. We will also try our best to provide you with any existing past records of this data.
 - However, we have not conducted any bathymetric surveys as of yet. There were hydrographic surveys conducted by MNDF recently where bathymetric data were collected. We will request and attempt to access this data.

2. Can we propose international team members?

• A: Bidders are more than welcome to propose international members who fit our requirements. Please note that their educational certificates and credentials need not be accredited by MQA but they must be submitted within the bid proposal.

3. Can we propose a more reasonable timeline?

• A: After careful consideration, our new anticipated timeline for this project is a period not exceeding 5 months. However, we are still open to negotiate and agree upon a more realistic timeline if suggested by the bidder.

4. Can you share the budget for this project?

- A: We are unable to disclose this information.
- 5. Could we get an extension to the submission deadline as the requirement in the TOR is extensive.
 - A: We'll proceed as scheduled in the bid announcement. Bid opening will be held at Kulhudhuffushi City Council and Local Government Authority on 31st August at 10:30am.

- 6. Must all key deliverables be in Dhivehi language?
 - A: The only Dhivehi language requirement for this project has been highlighted in point number 10 under 6. Key Deliverables sections of the TOR.

Note: Please note that you may propose a team leader with their educational background in disaster management, emergency management, climate change adaptation, climate smart planning OR any other related fields. You are to submit proof of their educational qualifications for our evaluation.
