1. Is 5Mp camera the minimum?

Changed to minimum to 4mp. refer to latest updated version of info sheet ->sec. specification.

2. There was 11 poles in the drawing but 10 in the list. Which is correct?

There was 11 poles in the drawing by mistake Refer to the latest version of bid book which is 10 poles in the drawing-

3. Referring to NVR specifications (page 46 of RFP) features include "Manageable with EZ station". Would an NVR lacking this feature still be suitable?

Refer to the bid bid book version 3 (18 January 2024)

4. Referring to Camera and UPS Backup specifications (page 46 of RFP), the camera resolution is given as 5 mega pixels. Would a resolution of 4 megapixels be satisfactory? There isn't a significant difference in resolution between the two options.

Refer to the bid bid book version 3 (18 January 2024)
